## EDUCATION

### Bachelor of Technology

CMR Institute Of Technology  
(2024 - 2028) 8.85 CGPA

### XI - XII

Sri Chaitanya Junior Kalasala  
(2022 - 2024) 93%

### X

MRR High School  
(2022) 98%

## SKILLS

### Technical Skills

- Java, Python, C
- HTML, CSS, Tailwind CSS
- MySQL, Tableau
- Git, GitHub

### UI/UX & Product Design

- Wireframing & Prototyping (Figma)
- Design Thinking
- User Flows & Information Architecture
- Accessibility & Usability Basics

### Soft Skills

- Leadership & Team Collaboration
- Communication & Presentation
- Problem Solving & Critical Thinking
- Adaptability
- Time Management

## PROFILE

Computer science undergraduate with strong programming fundamentals and interest in software systems, algorithms, and research-driven problem solving. Experienced in building projects, contributing to open source, and exploring AI concepts. Actively seeking a summer research internship to learn rigorous research practices under faculty mentorship.

## PROJECTS

### SkillScope AI - Resume Analysis Platform

- Designed a clean, user-friendly interface with focus on clarity, information flow, and usability.
- Implemented rule-based analysis and structured data processing to extract resume information
- Integrated AI prompts to generate personalized skill insights and learning roadmaps, improving interpretability of resume feedback

### ScamShield - LinkedIn Safety Concept

- Conducted UX thinking to design in-feed safety indicators
- Created interactive prototypes for user trust visualization
- Focused on product usability and real-world impact

## EXPERINECES

### UI/UX Virtual Intern - Cognifyz Technologies

- Designed user personas, user flows, and wireframes for mobile interfaces
- Created mood boards and applied clarity-focused layouts to improve usability
- Practiced design thinking and accessibility-aware UI decisions

### Winner - Ideathon (MediSpeak)

- Proposed an AI-powered health assistant focused on accessibility and clarity
- Recognized for innovation, problem framing, and solution design

### GSSOC'25 Contributor

- Contributed to an open-source web project (TheCawnporeMag.github.io)
- Improved site structure and content through code and documentation updates
- Collaborated using GitHub issues, pull requests, and reviews

## CERTIFICATIONS

- Fundamentals of Machine Learning by Microsoft
- Junior Software Programmer in C by TBOCWBB
- Coding Essentials by Scaler Generative AI, Python by
- GUVI API Fundamentals Student Expert by Postman
